

CMESG 99 Scrapbook

CMESG 99 was organised by Eric Muller, and marked the end of Eric's long and excellent term as Treasurer.

Ralph Mason introduced us all to modular origami polyhedra, and as a token of the appreciation of the members of CMESG for Eric's many contributions he was presented with two icododecahedra made up of individual modules made and signed by the participants at CMESG 99.

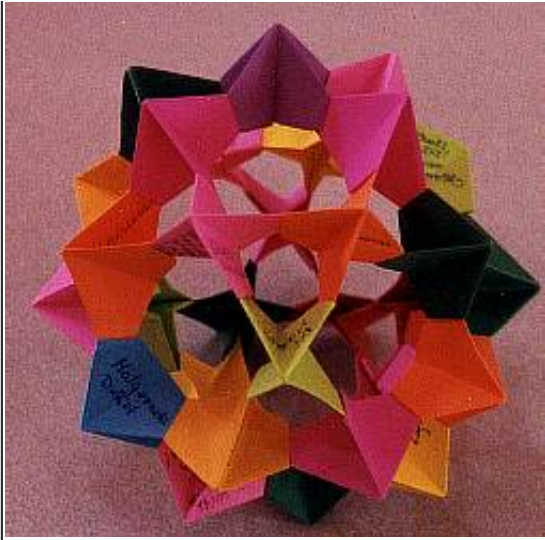

Eric.

How many mathematical objects can you identify in this picture?

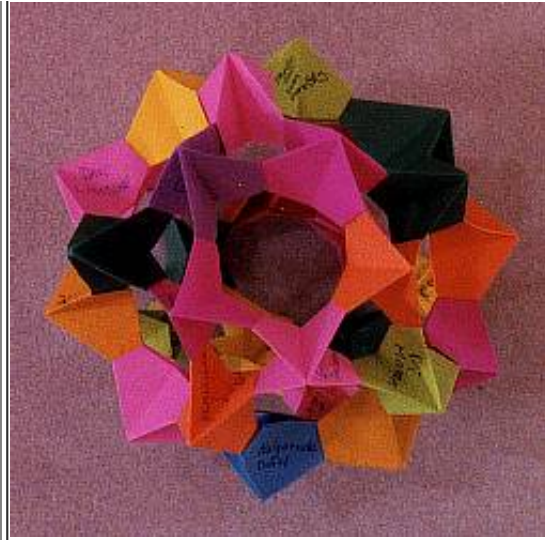

The current executive of CMESG with Eric.

From the left: Elaine Simmt, Joel Hillel, Eric, Malgorzata Dubiel, Mary Crowley, Frédéric Gourdeau, Olive Chapman

The icododecaheron, triangular face.

The icododecaheron, pentagonal face.
